add'l graphics

**Black Lightning**
substitute

**Legacies**
substitute

**The Resident**
substitute

**The First Lady**
props graphics

## Skills

I am very knowledgeable about clearance requirements and am able to create graphics, tag lines and copy that is sure to clear. I provide concise information to make the clearance process as fast and painless as possible. The strong working relationships I have developed with local vendors over the years insures that graphics are printed correctly and on-time, using materials that are appropriate and cost-effective.

I am also an excellent self-manager and heavily utilize one-liners and prep schedules to ensure that graphics are done and delivered at the right time, with the right priority.

I work mostly within Adobe CC (Illustrator, Photoshop, InDesign, etc.) but have a passable knowledge of SketchUp, Fusion360 and others if the need should arise.
